

## **THE PROJECT POPULAR SCHOOL OF CITIZENSHIP OF REBBIO**

aims to provide to the migrant population (passing and resident), as well as to the indigenous population, opportunities of knowledge and comparison on the fundamental issues of community life. The idea is the result of the migrants welcoming and accompanying experience by the Parish of Rebbio. This experience has been gathered by different organizations and people from different cultural and political areas, engaged in social promotion and in the defence of human rights activities for all. It is based on the recognition of the multiethnic reality of our territory, of its value as well as its difficulties which can be overcome, and on the challenge of outlining a common path towards informed, aware, participated and active citizenship. It performed its first activities in some experimental sessions last year, by gradually reaching method and work choices aimed at enhancing all the participants as protagonists of the School meetings. The appointments are held with the collaboration and the attendance persons with a specific and recognized competence on the covered topics. The "Popular School of Citizenship of Rebbio" links its name to Rebbio and to the human, social, civil and to the ethical wealth that belongs to this place.

The meetings already scheduled for 2019, all titled with a verb to signify their active and creative value, are:

24 February 2019  
**DOING POLITICS**  
Representation, participation and citizenship

Identities, conflicts and meetings

September / October  
**TO BELIEVE**

November  
**GETTING INFORMED**

Scuola popolare  
di cittadinanza  
di Rebbio

# DOING POLITICS

**Representation, participation,  
citizenship**

Sunday 24th February 2,30 pm  
Parish of Rebbio, via Lissi 11 Como

We'll talk about it with Raffaele Mantegazza, professor at the *Bicocca University in Milan*. We will try to think about what politics means for us, how it is practiced, in which forms and contexts. We will discuss concrete cases to identify the problematic issues underlying the idea of participation, representation, citizenship and democracy. An exchange that we hope will enrich the capacity for reflection, action and coexistence of each one. Migrants and natives are invited together at the meeting, organized by the *Popular School of Citizenship of Rebbio*.
